

Own Your Cloud Spend with GlobalDots

Save 45% off your cloud bill with the most powerful cost optimization tool. Real-time stats. Real-time action. **Real financial impact.**

Cloud Costs Can Be Chaos

As your business increases its Cloud dependence, costs become harder to map and control. With a typical 3-day delay, your cloud provider's usage stats are non-actionable.

Let's Tame It

Our novel technology extracts real-time cloud usage data, then automatically negotiates better-priced plans based on usage pattern. With a full buyback guarantee, only used resources are billed for at the most optimal rate. **Cost reduction** is immediate.

Performance? Never better.

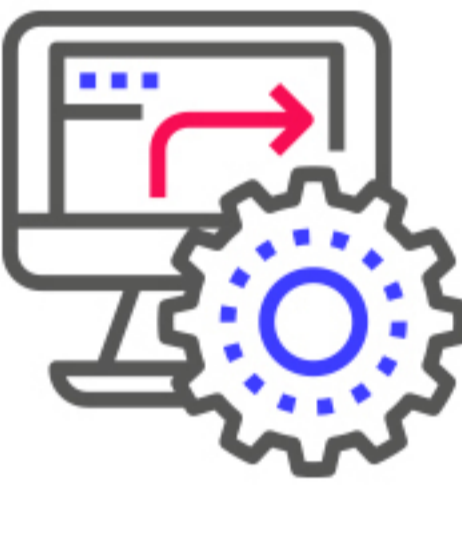

Your Benefits

Success-based model

No code change

Real-time, automated actions
